BENEFITS:

Scientific studies support healthful roles for aloe vera consumed internally in constipation, peptic ulcers, immune system enhancement, diabetes, asthma, allergy & inflammation, bacterial, fungal and vital infections, intestinal worms, pain, detoxification, wound healing and other conditions.

WHY GNLD ALOE VERA PLUS?

Fine aloe vera juice. GNLD's Aloe Vera Plus meets all requirements of the International Aloe Science Council, a voluntary industry group that establishes standards for aloe vera products.

- **50% finest aloe vera juice.** Harvested with the base of leaves intact and sealed, then processed right at the farm, GNLD aloe vera maximizes purity and retention of natural botanical health promoting properties.
- **“Gel only” filleting process** avoids undesirables found in whole-leaf aloe.
- **50% GNLD's Special 3x Herbal Tea Blend.** Includes ginseng/Eleuthero, plus chamomile and passion flower to calm and relax.
- **Important electrolytes.** Potassium and magnesium for metabolic support of the body, especially the cardiovascular and nervous systems.
- **Vitamin C.** Each serving provides 170% of the Daily Value for vitamin C, an antioxidant that supports immunity, cardiovascular health, skin tone, and more.
- **“Glycemic edge” beverage.** Sweetened with fructose for quick and sustained energy.
- **Great natural flavor.** Pleasant-tasting aloe gel, delicious herbal tea blend, natural lemon flavor, and natural sweeteners add up to great taste.
- **Only 16 calories per 2-ounce serving.**

HOW TO TAKE:

2 – 4 ounces a day is all it takes!

*if trouble sleeping take at bedtime

TESTIMONIES:

P. Senzel, Orangeville, ON

I was diagnosed with **bleeding ulcers** and was **in constant pain**. During the night when I would lie down, the **acid would burn up my throat and I found it very difficult to sleep**. When I was introduced to the Aloe Vera Plus by Maryellen, I couldn't believe how quickly I got results. Within just a few days, the pain began to subside and I could tell that the ulcers were healing. I now find it easier to sleep and every day my pain is getting less – thanks to the GNLD product.

M. Saunders. Tottenham, ON

About 9 years ago I was involved in a serious **car accident, which resulted in severe abdominal injuries, requiring my bowel and stomach to be reattached, and my spleen to be removed**. Since then I have lived with a **lot of abdominal pain and I often felt weak, had headaches, back pain and was restless**. The doctors recommended that I take some good nutritional supplements to increase the supply of nutrients, which I was not getting from whole foods.

I had taken multi vitamins from a health food store before, which gave me some relief, but the symptoms continued.

Then I attended a health and nutrition awareness seminar and ended up purchasing the GNLD Nourishake, Aloe Vera Plus and Formula IV. After taking these for two weeks, my condition improved substantially. I have no more abdominal pain, my headaches are much less, my energy has increased, and I sleep much better. I know now that not all supplements are created equal and plan on staying with the best: GNLD!

D. Melen, Orangeville

For the past 25 years I have suffered from recurring **canker sores**. Many times they would be so bad I couldn't talk or eat. Often they were so painful that I had tears in my eyes. Over time I tried many treatments without getting any relief. Then, shortly after I started on Aloe Vera Plus the canker sores disappeared. Sometime later, I missed taking my Aloe Vera Plus for about a week and some cankers appeared again. As soon as I started taking the Aloe Again, the sores disappeared within a few days. I am so happy to have found GNLD and believe their products are super.
